A communication dated 03/10/06 has been considered with the following results:

***Oath/Declaration***

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. Applicant should clearly identify what species were not claimed in the original patent.

Claims 1-109 are rejected as being based upon a defective reissue declaration/oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration/oath is set forth in the discussion above in this Office action.

2. Also, a supplemental declaration is need for those amendments previously filed in this application.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-109 are rejected as being based upon a defective reissue declaration/oath under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”

See MPEP § 1414.01.

**Note:** Items (1) and (2) above can be corrected by a single declaration.

Art Unit: 2627

3. All newly added claims other than the original claims in the previous amendments must be underlined in their entirety. Also, all changes in the original claims must show by underlining and bracketing.
4. The child Reissue application 11/416,589 should be cross-referenced at the beginning of the specification in order to avoid necessity of later Certificate of Correction, and make sure the amendment is underlined.

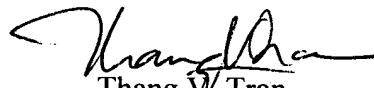

***Response to Arguments***

5. Applicant's arguments with respect to claimed invention have been considered but are moot in view of the new ground(s) of rejection.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thang V. Tran whose telephone number is (571) 272-7595. The examiner can normally be reached on M-F 9:30AM-6:00PM.
